

Good Afternoon,

I hope this message finds you well. My name is Refugio Moreno and I am the new External Vice President for the Society of Hispanic Professional Engineers' student chapter at Illinois Institute of Technology (SHPE-IIT). I composed this message with the sole purpose of extending an invitation to establishing and maintaining a close relationship between your organization and SHPE-IIT.

Throughout the years, SHPE-IIT has focused on transitioning engineering students into professionals who can produce value within their specific field. Whether we host resume workshops, tutoring sessions, mentor programming, or a simple volunteering event at our Junior Chapter, our members have the opportunity to experience networking beyond the walls of academics. Although we try our best to make this happen on our own, we rely on corporations, such as your own to support us with our endeavors.

SHPE-IIT continues to provide active professional and academic support, career and technical development, community involvement, and recruitment and retention of top-tier Hispanic students. Many leaders have emerged from our organization, and through opportunities within SHPE-IIT, have acquired the tools necessary to succeed in today's workforce. Through your company's participation, you will have first-look insight into our organization and will have the ability to market your company to a diverse group of students of various engineering disciplines.

On behalf of the Illinois Institute of Technology student chapter of the Society of Hispanic Professional Engineers (SHPE-IIT), we would like to thank you for taking the time to explore our organization. We look forward to collaborating with you and your organization in the near future.

If you have any questions, comments, or need further information, please feel free to contact us through email:

Respectfully,

Abraham Chavez

The Society of Hispanic professional Engineers, Inc. is a non-profit international organization dedicated to increasing the participation of college students in the fields of engineering and related sciences. Their mission statement is to promote the development of engineering and related sciences. Their mission statement is to promote the development of Hispanics in engineering, science, and other technical professions to achieve educational excellence, economic opportunity, and social equity.

Our Mission Statement: *SHPE changes lives by empowering the Hispanic community to realize its fullest potential and to impact the world through STEM awareness, access, support, and development.*

Our Vision: *SHPE's vision is a world where Hispanics are highly valued and influential as the leading innovators, scientists, mathematicians and engineers.*

SHPE-IIT truly appreciates your generosity and support. Thank you!
